

CAPTAIN SAFETY

by R. JELANI

IT'S A TYPICAL DAY AT THE D.O.E.S. LABOR STANDARDS BUREAU WHEN....

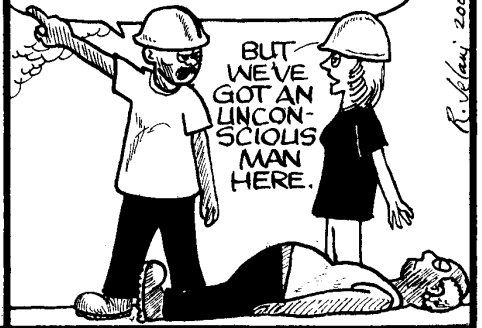

HELP!

THIS IS A JOB FOR CAPTAIN SAFETY...
AW, MAN! I POPPED ANOTHER BUTTON. I WONDER IF WAL-MART HAS DRESS SHIRTS WITH VELCRO?

MEANWHILE....

AN EXPLOSION STARTED A FIRE DOWN THE HALL! WE HAVE TO EVACUATE THE BUILDING.

CAPTAIN SAFETY

by R. JELANI

WHAT HAPPENED AT THIS CONSTRUCTION SITE?

A GAS LINE RUPTURED AND A SPARK CAUSED THE EXPLOSION. I THINK THIS MAN IS IN CARDIAC ARREST.

CAPTAIN SAFETY!

DO YOU KNOW CPR?

GOOD. YOU TWO WORK ON HIM. I'LL CONTAIN THE FIRE AND OVERSEE THE EMERGENCY EVACUATION.

CAPTAIN SAFETY CALLS 911 AND PULLS THE FIRE ALARM..

R. Jelani 2003

...WHILE THE WORKERS HELP THEIR COLLEAGUE.

ARE YOU OKAY?

HE'S NOT RESPONDING. LET'S START CPR.

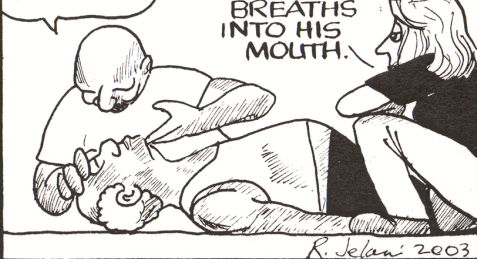

CAPTAIN SAFETY

by R. JELANI

THE CONSTRUCTION WORKERS ATTEMPT TO REVIVE THE INJURED MAN USING CPR.

I'LL TILT HIS HEAD BACK TO OPEN HIS AIRWAY.

IF HE'S STILL NOT BREATHING, PINCH HIS NOSE AND GIVE 2 FULL BREATHS INTO HIS MOUTH.

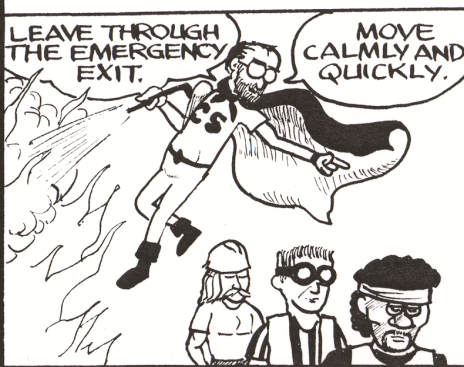

R. Jelani 2003

CAPTAIN SAFETY USES A FIRE EXTINGUISHER TO PUT OUT THE FIRE.

LEAVE THROUGH THE EMERGENCY EXIT.

MOVE CALMLY AND QUICKLY.

HE THEN REJOINS THE DUO HELPING THEIR CO-WORKER.

PERFORM 5 COMPRESSIONS TO EVERY 1 BREATH.

I'M STARTING CHEST COMPRESSIONS

CHECK HIS PULSE. I THINK YOU REVIVED HIM.
